Dr. Stahlman,

Equitrans, L.P. (Equitrans) recently sent you a letter introducing a new proposed natural gas project, the Ohio Valley Connector Expansion Project (Project). Equitrans will be seeking a Certificate of Public Convenience and Necessity from the Federal Energy Regulatory Commission (FERC) pursuant to Section 7(c) of the Natural Gas Act (NGA) as amended, authorizing Equitrans to construct and operate the proposed Project.

Attached is a letter with a Project description and Project location maps. A hardcopy of the letter has also been mailed to your office. This informational letter is being provided as part of the initial consultation process in accordance with Section 106 of the National Historic Preservation Act (36 CFR 800.2). While these regulations allow companies or consultants to gather information, FERC ultimately will be responsible for determinations. Additionally, FERC ultimately will be responsible for establishing a government-to-government relationship.

On behalf of Equitrans, GAI Consultants, Inc. would like to take this opportunity to invite you to participate in the review of this Project during FERC's filing process. We look forward to your involvement and appreciate your cooperation.

Sincerely,

Jonathan Glenn, M.A., RPA Cultural Resources Manager Office 412.399.5191 Mobile 412.735.9970 GAI Consultants, Inc., 385 East Waterfront Drive, Homestead, PA 15120-5005 Facebook | LinkedIn | Twitter | YouTube | News & Insights | gaiconsultants.com (412-476-2000)

Project R210388.00

Dr. Joe Stahlman, THPO Seneca Nation of Indians Onõhsagwë: De' Cultural Center, 82 W. Hetzel Street Salamanca, NY 14779

Project Information FERC Docket No. *Pending* Ohio Valley Connector Expansion Project Equitrans, L.P. Greene County, Pennsylvania; Wetzel County, West Virginia; and Monroe County, Ohio

Dear Dr. Stahlman:

Equitrans, L.P. (Equitrans) recently sent you a letter introducing a new proposed natural gas project, the Ohio Valley Connector Expansion Project (Project). GAI Consultants, Inc. (GAI), on behalf of Equitrans, is contacting you with further information. A Project description is provided below, and a Project location map is attached. Equitrans has contracted GAI to provide environmental and cultural resources consulting services to support the federal, state, and local permitting for the Project.

### **Project Description**

Equitrans is seeking a Certificate of Public Convenience and Necessity from the Federal Energy Regulatory Commission (FERC) pursuant to Section 7(c) of the Natural Gas Act (NGA) as amended, authorizing Equitrans to construct and operate the proposed Equitrans Ohio Valley Connector Expansion Project (Project) located in Greene County, Pennsylvania (PA); Wetzel County, West Virginia (WV); and, Monroe County, Ohio (OH).

The purpose of the Project is to increase the pipeline capacity of Equitrans' Mainline System, particularly for the transportation path from southwest PA to northern WV to eastern OH, to provide incremental gas supplies to connected third-party pipelines for subsequent delivery to expanding mid-continent and Gulf Coast markets. The scope of facilities currently includes the following proposed pipelines, associated aboveground facilities, access roads, cathodic protection, staging areas, and contractor/laydown yards:

- removal of the existing 3606 compressor and addition of two Taurus T-70 turbines at the existing Cygrymus Compressor Station with additional mechanical and electrical equipment to support the horsepower increase in Greene County, PA;
- addition of one Mars 100 compressor unit to support the sole existing Mars 100 compressor unit, at the extant Corona Compressor Station, with supplementary mechanical and electrical equipment to support the horsepower increase in Wetzel County, WV;
- addition of one Titan 130 to the two existing Taurus 70 compressor units at the existing Plasma Compressor Station with additional mechanical and electrical equipment to support the horsepower increase in Monroe County, OH;
- papproximately 0.5 mile of 16-inch-diameter natural gas pipeline (H-327) in Greene County, PA;
- approximately 0.5 mile of 12-inch-diameter natural gas pipeline (H-328) in Greene County, PA;
- approximately 3.7 miles of 24-inch-diameter natural gas pipeline (H-326) in Wetzel County, WV;
- approximately 129 feet (0.02 mile) of eight-inch-diameter natural gas pipeline (H-329) in Wetzel County, WV;
- approximately 0.7 mile of 16-inch-diameter natural gas pipeline (H-330) in Wetzel County, WV;
- approximately 0.09 mile of 16-inch-diameter natural gas pipeline (H-330 Spur) in Wetzel County, WV;
- approximately 160 feet (0.03 mile) of 12-inch-diameter natural gas pipeline (Logansport Spur) in Wetzel County, WV;
- b one deep anode groundbed and rectifier for cathodic protection in Greene County, PA;
- additional ancillary facilities, such as a valve yard, taps, and internal inspection device (e.g., pig) launchers and receivers in Greene County, PA;

- additional ancillary facilities, such as mainline valves (MLVs), valve yards, measuring equipment, and internal inspection device (e.g., pig) launchers and receivers in Wetzel County, WV;
- new and existing temporary and permanent access roads, staging/parking areas, and contractor yards in Greene County, PA and Wetzel County, WV; and
- existing permanent access road in Monroe County, OH.

### **Project Request**

Equitrans and GAI are providing you this informational letter as part of the initial consultation process in accordance with Section 106 of the National Historic Preservation Act (36 CFR 800.2). While the regulations of the National Historic Preservation Act allow companies or consultants to gather information, FERC ultimately will be responsible for determinations. Additionally, FERC ultimately will be responsible for establishing a government-to-government relationship.

On behalf of Equitrans, GAI would like to take this opportunity to invite the Seneca Nation of Indians to participate in the review of this Project during FERC's filing process. We look forward to your involvement in the review of this important Project and appreciate your cooperation. If you have questions regarding this submission, please contact me at 412-399-5191 or via email at j.glenn@gaiconsultants.com.

Sincerely,

Project R210388.00

Ms. Beverly Kiohawiton Cook, Chief Saint Regis Mohawk Tribe 71 Margaret Terrance Memorial Way, Akwesasne, NY 13655

Project Information FERC Docket No. *Pending* Ohio Valley Connector Expansion Project Equitrans, L.P. Greene County, Pennsylvania; Wetzel County, West Virginia; and Monroe County, Ohio

Dear Ms. Cook:

Equitrans, L.P. (Equitrans) recently sent you a letter introducing a new proposed natural gas project, the Ohio Valley Connector Expansion Project (Project). GAI Consultants, Inc. (GAI), on behalf of Equitrans, is contacting you with further information. A Project description is provided below, and a Project location map is attached. Equitrans has contracted GAI to provide environmental and cultural resources consulting services to support the federal, state, and local permitting for the Project.

#### **Project Description**

Equitrans is seeking a Certificate of Public Convenience and Necessity from the Federal Energy Regulatory Commission (FERC) pursuant to Section 7(c) of the Natural Gas Act (NGA) as amended, authorizing Equitrans to construct and operate the proposed Equitrans Ohio Valley Connector Expansion Project (Project) located in Greene County, Pennsylvania (PA); Wetzel County, West Virginia (WV); and, Monroe County, Ohio (OH).

The purpose of the Project is to increase the pipeline capacity of Equitrans' Mainline System, particularly for the transportation path from southwest PA to northern WV to eastern OH, to provide incremental gas supplies to connected third-party pipelines for subsequent delivery to expanding mid-continent and Gulf Coast markets. The scope of facilities currently includes the following proposed pipelines, associated aboveground facilities, access roads, cathodic protection, staging areas, and contractor/laydown yards:

- removal of the existing 3606 compressor and addition of two Taurus T-70 turbines at the existing Cygrymus Compressor Station with additional mechanical and electrical equipment to support the horsepower increase in Greene County, PA;
- addition of one Mars 100 compressor unit to support the sole existing Mars 100 compressor unit, at the extant Corona Compressor Station, with supplementary mechanical and electrical equipment to support the horsepower increase in Wetzel County, WV;
- addition of one Titan 130 to the two existing Taurus 70 compressor units at the existing Plasma Compressor Station with additional mechanical and electrical equipment to support the horsepower increase in Monroe County, OH;
- approximately 0.5 mile of 16-inch-diameter natural gas pipeline (H-327) in Greene County, PA;
- approximately 0.5 mile of 12-inch-diameter natural gas pipeline (H-328) in Greene County, PA;
- approximately 3.7 miles of 24-inch-diameter natural gas pipeline (H-326) in Wetzel County, WV;
- approximately 129 feet (0.02 mile) of eight-inch-diameter natural gas pipeline (H-329) in Wetzel County, WV;
- approximately 0.7 mile of 16-inch-diameter natural gas pipeline (H-330) in Wetzel County, WV;
- approximately 0.09 mile of 16-inch-diameter natural gas pipeline (H-330 Spur) in Wetzel County, WV;
- approximately 160 feet (0.03 mile) of 12-inch-diameter natural gas pipeline (Logansport Spur) in Wetzel County, WV;
- b one deep anode groundbed and rectifier for cathodic protection in Greene County, PA;
- additional ancillary facilities, such as a valve yard, taps, and internal inspection device (e.g., pig) launchers and receivers in Greene County, PA;

- additional ancillary facilities, such as mainline valves (MLVs), valve yards, measuring equipment, and internal inspection device (e.g., pig) launchers and receivers in Wetzel County, WV;
- new and existing temporary and permanent access roads, staging/parking areas, and contractor yards in Greene County, PA and Wetzel County, WV; and
- existing permanent access road in Monroe County, OH.

## **Project Request**

Equitrans and GAI are providing you this informational letter as part of the initial consultation process in accordance with Section 106 of the National Historic Preservation Act (36 CFR 800.2). While the regulations of the National Historic Preservation Act allow companies or consultants to gather information, FERC ultimately will be responsible for determinations. Additionally, FERC ultimately will be responsible for establishing a government-to-government relationship.

On behalf of Equitrans, GAI would like to take this opportunity to invite the Saint Regis Mohawk Tribe to participate in the review of this Project during FERC's filing process. We look forward to your involvement in the review of this important Project and appreciate your cooperation. If you have questions regarding this submission, please contact me at 412-399-5191 or via email at j.glenn@gaiconsultants.com.

Sincerely,

#### GAI Consultants, Inc.
